

generated January 2026

Antigua and Barbuda

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Antigua and Barbuda. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

► Access and usage

► Data availability in Antigua and Barbuda

► Data mobilization

Number of records published by institutions in Antigua and Barbuda, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in Antigua and Barbuda

Monthly downloads requested by users in Antigua and Barbuda

Data availability

Total data available for selected taxonomic groups in Antigua and Barbuda

Mammals
1,243
occurrences

Birds
82,983
occurrences

Bony fish
2,248
occurrences

Amphibians
1,019
occurrences

Insects
11,729
occurrences

Reptiles
2,469
occurrences

Molluscs
6,119
occurrences

Arachnids
1,972
occurrences

Flowering plants
7,302
occurrences

Ferns
290
occurrences

Gymnosperms
2
occurrences

Mosses
54
occurrences

Sac fungi
119
occurrences

Basidiomycota
31
occurrences

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in Antigua and Barbuda

Occurrence records available about species occurring in Antigua and Barbuda

Species for which at least one occurrence record is available in Antigua and Barbuda

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Newest publishers from Antigua and Barbuda

No data available

Occurrence records downloaded from GBIF.org, published by institutions in Antigua and Barbuda

See all publishers from this country or area
gbif.org/publisher/search?country=AG

Number of occurrence records downloaded via GBIF.org published by institutions in Antigua and Barbuda

Data mobilization

Data sharing with country or area of origin by national institutions in Antigua and Barbuda

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Antigua and Barbuda, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Antigua and Barbuda

Rank	Country or area	No. of occurrences
1	Antigua and Barbuda	76,240
2	United States of America	27,303
3	International organization or unknown country	11,501
4	Canada	2,713
5	United Kingdom	2,371
6	Netherlands	808
7	Spain	740
8	Belgium	344
9	Germany	335
10	France	310

Table 1. Ranking of countries or areas contributing data about Antigua and Barbuda

Top datasets contributing data about Antigua and Barbuda

EOD – eBird Observation Dataset. 76,240 occurrences in Antigua and Barbuda. (Last updated 29 Oct 2025)

International Barcode of Life project (iBOL). 11,359 occurrences in Antigua and Barbuda. (Last updated 28 Nov 2025)

NMNH Extant Specimen Records (USNM, US). 7,710 occurrences in Antigua and Barbuda. (Last updated 2 Jan 2026)

iNaturalist Research-grade Observations. 7,247 occurrences in Antigua and Barbuda. (Last updated 31 Dec 2025)

University of Liverpool seabird tracking in Anguilla 2012-2015. 3,149 occurrences in Antigua and Barbuda. (Last updated 16 Dec 2025)
