

generated January 2026

Aruba

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Aruba. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

► Access and usage

► Data availability in Aruba

► Data mobilization

Access and usage

Data downloads on GBIF.org from users in Aruba

Monthly downloads requested by users in Aruba

Data availability

Total data available for selected taxonomic groups in Aruba

Mammals
279
occurrences

Birds
302,243
occurrences

Bony fish
2,122
occurrences

Amphibians
92
occurrences

Insects
1,777
occurrences

Reptiles
2,788
occurrences

Molluscs
2,509
occurrences

Arachnids
101
occurrences

Flowering plants
7,725
occurrences

Ferns
10
occurrences

Gymnosperms
0
occurrences

Mosses
2
occurrences

Sac fungi
20
occurrences

Basidiomycota
15
occurrences

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in Aruba

Occurrence records available about species occurring in Aruba

Species for which at least one occurrence record is available in Aruba

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Newest publishers from Aruba

No data available

Occurrence records downloaded from GBIF.org, published by institutions in Aruba

See all publishers from this country or area
gbif.org/publisher/search?country=AW

Number of occurrence records downloaded via GBIF.org published by institutions in Aruba

Data mobilization

Data sharing with country or area of origin by national institutions in Aruba

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Aruba, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Aruba

Rank	Country or area	No. of occurrences
1	Aruba	291,685
2	Netherlands	15,157
3	United States of America	13,614
4	Belgium	1,332
5	United Kingdom	854
6	Germany	793
7	Canada	460
8	France	243
9	International organization or unknown country	194
10	Colombia	83

Table 1. Ranking of countries or areas contributing data about Aruba

Top datasets contributing data about Aruba

EOD – eBird Observation Dataset. 291,685 occurrences in Aruba. (Last updated 29 Oct 2025)

iNaturalist Research-grade Observations. 10,995 occurrences in Aruba. (Last updated 31 Dec 2025)

Observation.org, Nature data from around the World. 7,808 occurrences in Aruba. (Last updated 16 Dec 2025)

Naturalis Biodiversity Center (NL) - Botany. 3,240 occurrences in Aruba. (Last updated 23 Oct 2025)

Flora of the Dutch Caribbean Islands. 2,670 occurrences in Aruba. (Last updated 26 May 2022)
