

generated January 2026

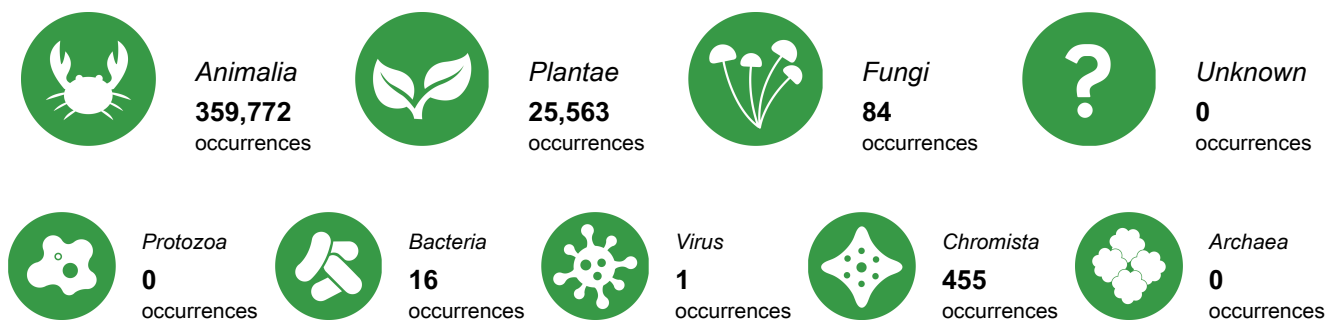

Bonaire, Sint Eustatius and Saba

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Bonaire, Sint Eustatius and Saba. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

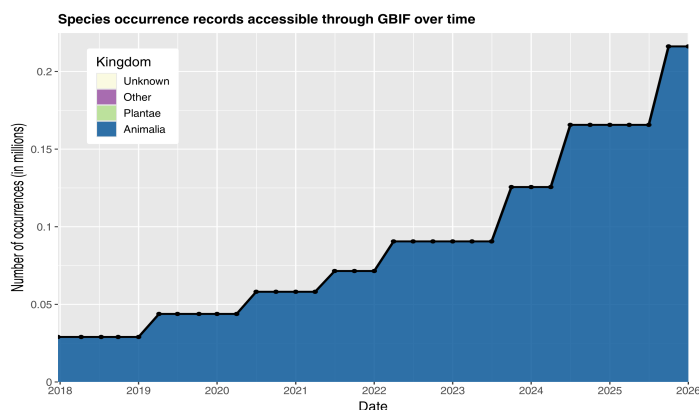

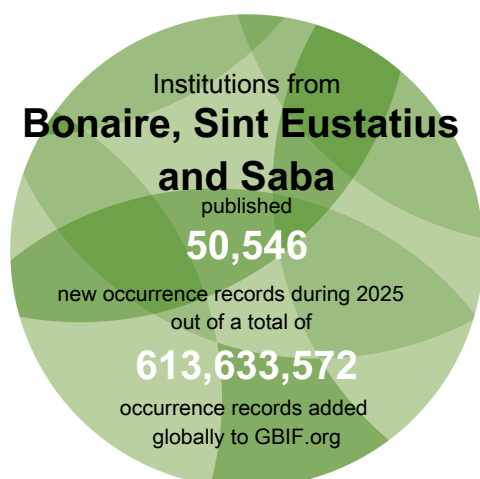

► Access and usage

► Data availability in Bonaire, Sint Eustatius and Saba

► Data mobilization

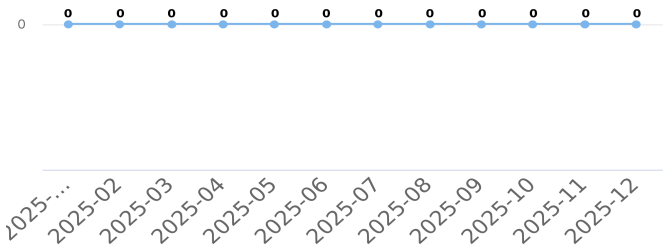

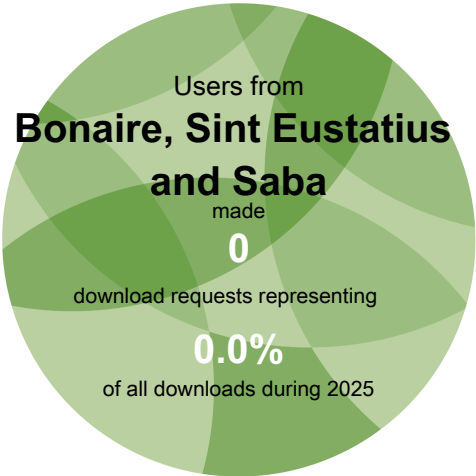

Number of records published by institutions in Bonaire, Sint Eustatius and Saba, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in Bonaire, Sint Eustatius and Saba

Monthly downloads requested by users in Bonaire, Sint Eustatius and Saba

Data availability

Total data available for selected taxonomic groups in Bonaire, Sint Eustatius and Saba

Mammals
471
occurrences

Birds
296,116
occurrences

Bony fish
24,148
occurrences

Amphibians
377
occurrences

Insects
10,193
occurrences

Reptiles
5,702
occurrences

Molluscs
5,656
occurrences

Arachnids
436
occurrences

Flowering plants
22,993
occurrences

Ferns
1,011
occurrences

Gymnosperms
9
occurrences

Mosses
463
occurrences

Sac fungi
46
occurrences

Basidiomycota
37
occurrences

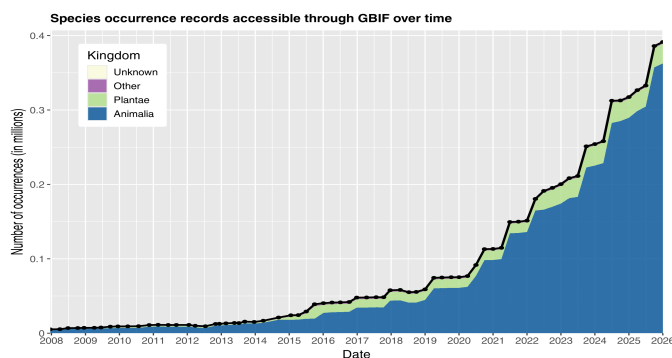

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

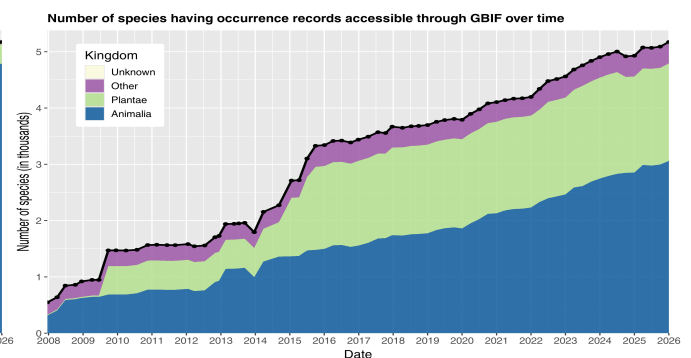

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in Bonaire, Sint Eustatius and Saba

Occurrence records available about species occurring in Bonaire, Sint Eustatius and Saba

Species for which at least one occurrence record is available in Bonaire, Sint Eustatius and Saba

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

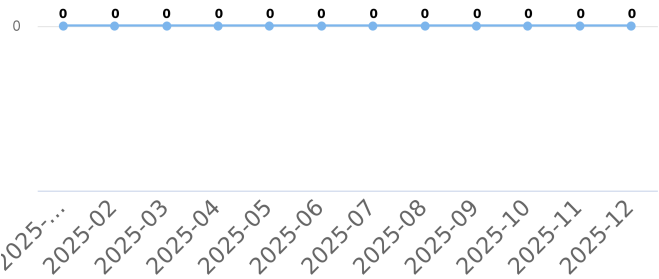

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Newest publishers from Bonaire, Sint Eustatius and Saba

No data available

Occurrence records downloaded from GBIF.org, published by institutions in Bonaire, Sint Eustatius and Saba

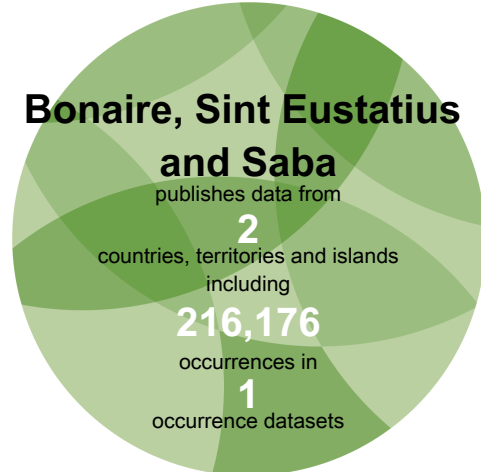

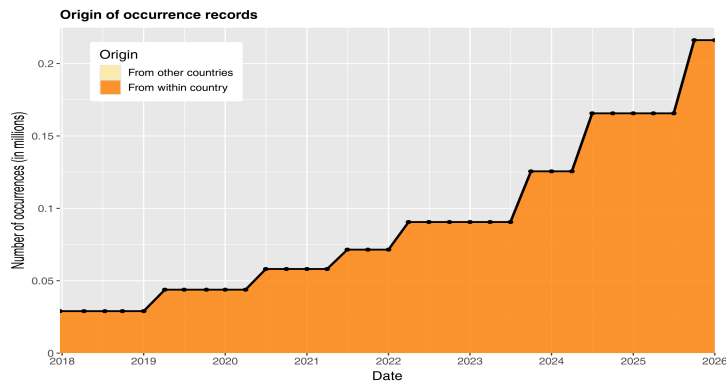

See all publishers from this country or area
gbif.org/publisher/search?country=BQ

Number of occurrence records downloaded via GBIF.org published by institutions in Bonaire, Sint Eustatius and Saba

Data mobilization

Data sharing with country or area of origin by national institutions in Bonaire, Sint Eustatius and Saba

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Bonaire, Sint Eustatius and Saba, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Bonaire, Sint Eustatius and Saba

Rank	Country or area	No. of occurrences
1	Bonaire, Sint Eustatius and Saba	216,152
2	Netherlands	92,911
3	United States of America	68,856
4	Venezuela	3,359
5	Canada	994
6	International organization or unknown country	952
7	United Kingdom	837
8	France	756
9	Russian Federation	256
10	Germany	228

Table 1. Ranking of countries or areas contributing data about Bonaire, Sint Eustatius and Saba

Top datasets contributing data about Bonaire, Sint Eustatius and Saba

EOD – eBird Observation Dataset. *216,152 occurrences in Bonaire, Sint Eustatius and Saba.* (Last updated 29 Oct 2025)

Observation.org, Nature data from around the World. *68,857 occurrences in Bonaire, Sint Eustatius and Saba.* (Last updated 16 Dec 2025)

iNaturalist Research-grade Observations. *41,169 occurrences in Bonaire, Sint Eustatius and Saba.* (Last updated 31 Dec 2025)

University of Liverpool seabird tracking in Anguilla 2012-2015. *19,275 occurrences in Bonaire, Sint Eustatius and Saba.* (Last updated 16 Dec 2025)

Flora of the Dutch Caribbean Islands. *9,420 occurrences in Bonaire, Sint Eustatius and Saba.* (Last updated 26 May 2022)
