

generated January 2026

Dominica

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Dominica. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

► Access and usage

► Data availability in Dominica

► Data mobilization

Number of records published by institutions in Dominica, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in Dominica

Monthly downloads requested by users in Dominica

Data availability

Total data available for selected taxonomic groups in Dominica

Mammals
1,997
occurrences

Birds
48,734
occurrences

Bony fish
3,878
occurrences

Amphibians
1,063
occurrences

Insects
6,854
occurrences

Reptiles
4,791
occurrences

Molluscs
2,955
occurrences

Arachnids
587
occurrences

Flowering plants
28,590
occurrences

Ferns
5,617
occurrences

Gymnosperms
83
occurrences

Mosses
1,209
occurrences

Sac fungi
9,978
occurrences

Basidiomycota
4,990
occurrences

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in Dominica

Occurrence records available about species occurring in Dominica

Species for which at least one occurrence record is available in Dominica

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Newest publishers from Dominica

No data available

Occurrence records downloaded from GBIF.org, published by institutions in Dominica

See all publishers from this country or area
gbif.org/publisher/search?country=DM

Number of occurrence records downloaded via GBIF.org published by institutions in Dominica

Data mobilization

Data sharing with country or area of origin by national institutions in Dominica

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Dominica, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Dominica

Rank	Country or area	No. of occurrences
1	United States of America	56,718
2	Dominica	44,370
3	Estonia	17,642
4	United Kingdom	7,610
5	France	3,258
6	Spain	1,641
7	Netherlands	1,334
8	Mexico	1,126
9	Canada	785
10	International organization or unknown country	747

Table 1. Ranking of countries or areas contributing data about Dominica

Top datasets contributing data about Dominica

EOD – eBird Observation Dataset. 44,370 occurrences in Dominica. (Last updated 29 Oct 2025)

NMNH Extant Specimen Records (USNM, US). 19,722 occurrences in Dominica. (Last updated 2 Jan 2026)

Global soil organisms. 14,629 occurrences in Dominica. (Last updated 27 Feb 2023)

iNaturalist Research-grade Observations. 5,972 occurrences in Dominica. (Last updated 31 Dec 2025)

The New York Botanical Garden Herbarium (NY). 4,036 occurrences in Dominica. (Last updated 25 Dec 2025)
