

generated January 2026

Dominican Republic

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Dominican Republic. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

► Access and usage

► Data availability in Dominican Republic

► Data mobilization

Number of records published by institutions in
Dominican Republic, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in Dominican Republic

Monthly downloads requested by users in Dominican Republic

Recent peer-reviewed articles using GBIF-mediated data by co-authors based in Dominican Republic

The GBIF Secretariat maintains and reports on an ongoing literature tracking programme, giving priority to substantive uses of GBIF-mediated data in peer-reviewed literature while identifying the countries or areas of the authors' institutional affiliations. The citations below represent the five most recent journal articles with at least one co-author from Dominican Republic.

Those interested in assisting the Secretariat in identifying additional peer-reviewed uses of GBIF-mediated data may forward relevant citations to comms@gbif.org.

Morejón-Arrojo, Sellares-Blasco, Guendulain-García *et al.* (2024) First occurrence of the invasive jellyfish *Phyllorhiza punctata* in the Dominican Republic: seasonal trend and invasion in the Atlantic Ocean. *Bulletin of Marine Science*.
<https://doi.org/10.5343/bms.2024.0061>

Pérez-Escobar, Bogarín, Przelomska *et al.* (2024) The origin and speciation of orchids. *New Phytologist*.
<https://doi.org/10.1111/nph.19580>

Juncá Morales, Rodríguez de Francisco, López Hidalgo *et al.* (2021) Endemic *Juniperus gracilior* varieties of the Hispaniola island, tree taxa of environmental and economic relevance and a valuable phytochemical source. *Bosque (Valdivia)*.
<https://doi.org/10.4067/s0717-92002021000100007>

Sangermano, Bol, Galvis *et al.* (2015) Habitat suitability and protection status of four species of amphibians in the Dominican Republic. *Applied Geography*.
<https://doi.org/10.1016/j.apgeog.2015.06.002>

Mengual, de Soto Molinari. (2020) First record of the genus *Syritta* Le Peletier & Audinet-Serville, 1828 (Diptera, Syrphidae) from the West Indies. *Check List*.

Data availability

Total data available for selected taxonomic groups in Dominican Republic

Mammals
13,816
occurrences

Birds
705,038
occurrences

Bony fish
7,621
occurrences

Amphibians
12,092
occurrences

Insects
59,329
occurrences

Reptiles
54,265
occurrences

Molluscs
30,192
occurrences

Arachnids
7,302
occurrences

Flowering plants
147,885
occurrences

Ferns
20,329
occurrences

Gymnosperms
892
occurrences

Mosses
13,976
occurrences

Sac fungi
12,744
occurrences

Basidiomycota
5,966
occurrences

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in Dominican Republic

Occurrence records available about species occurring in Dominican Republic

Species for which at least one occurrence record is available in Dominican Republic

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Most recent datasets from publishers in Dominican Republic

Fauna del parque solar Peravia I & Peravia II. *Published by AES Dominicana S.A.S.*

<https://doi.org/10.15468/zjq6be>

Colección de Macroalgas e Hierbas Marinas del Centro de Investigaciones de Biología Marina Idelisa Bonnelly de Calventi (CIBIMA IBC - UASD). *Published by Centro de Investigación de Biología Marina "Idelisa Bonnelly de Calventi" (CIBIMA IBC), Universidad Autónoma de Santo Domingo (UASD)*

<https://doi.org/10.15468/dbw4e9>

Flora del Parque Solar Mirasol. *Published by AES Dominicana S.A.S.*

<https://doi.org/10.15468/bdmqk2>

Flora del Parque Solar Bayasol. *Published by AES Dominicana S.A.S.*

<https://doi.org/10.15468/tpfefp>

Flora del Parque solar Peravia 1 y Peravia 2. *Published by AES Dominicana S.A.S.*

<https://doi.org/10.15468/u7r7km>

Euphausiids of the Greater Antilles. *Published by Programa EcoMar, Inc.*

<https://doi.org/10.15468/5p55cv>

Data mobilization

Data sharing with country or area of origin by national institutions in Dominican Republic

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Dominican Republic, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Dominican Republic

Rank	Country or area	No. of occurrences
1	Dominican Republic	686,799
2	United States of America	356,771
3	United Kingdom	16,308
4	Netherlands	10,557
5	Germany	9,854
6	France	7,387
7	Sweden	6,858
8	Canada	5,925
9	Belgium	4,241
10	International organization or unknown country	3,299

Table 1. Ranking of countries or areas contributing data about Dominican Republic

Top datasets contributing data about Dominican Republic

EOD – eBird Observation Dataset. 671,491 occurrences in Dominican Republic. (Last updated 29 Oct 2025)

iNaturalist Research-grade Observations. 64,961 occurrences in Dominican Republic. (Last updated 31 Dec 2025)

The New York Botanical Garden Herbarium (NY). 56,017 occurrences in Dominican Republic. (Last updated 25 Dec 2025)

NMNH Extant Specimen Records (USNM, US). 55,129 occurrences in Dominican Republic. (Last updated 2 Jan 2026)

Museum of Comparative Zoology, Harvard University. 30,497 occurrences in Dominican Republic. (Last updated 30 Dec 2025)
