

generated January 2026

Grenada

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Grenada. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

► Access and usage

► Data availability in Grenada

► Data mobilization

Access and usage

Data downloads on GBIF.org from users in Grenada

Monthly downloads requested by users in Grenada

Data availability

Total data available for selected taxonomic groups in Grenada

Mammals
1,278
occurrences

Birds
155,275
occurrences

Bony fish
1,374
occurrences

Amphibians
880
occurrences

Insects
3,876
occurrences

Reptiles
2,483
occurrences

Molluscs
4,501
occurrences

Arachnids
200
occurrences

Flowering plants
7,073
occurrences

Ferns
2,345
occurrences

Gymnosperms
4
occurrences

Mosses
190
occurrences

Sac fungi
753
occurrences

Basidiomycota
520
occurrences

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in Grenada

Occurrence records available about species occurring in Grenada

Species for which at least one occurrence record is available in Grenada

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Newest publishers from Grenada

No data available

Occurrence records downloaded from GBIF.org, published by institutions in Grenada

See all publishers from this country or area
gbif.org/publisher/search?country=GD

Number of occurrence records downloaded via GBIF.org published by institutions in Grenada

Data mobilization

Data sharing with country or area of origin by national institutions in Grenada

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Grenada, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Grenada

Rank	Country or area	No. of occurrences
1	Grenada	151,763
2	United States of America	23,333
3	Belgium	6,674
4	Germany	4,480
5	United Kingdom	3,676
6	Netherlands	1,025
7	Canada	948
8	France	438
9	Switzerland	427
10	International organization or unknown country	396

Table 1. Ranking of countries or areas contributing data about Grenada

Top datasets contributing data about Grenada

EOD – eBird Observation Dataset. *151,763 occurrences in Grenada.* (Last updated 29 Oct 2025)

Museum of Comparative Zoology, Harvard University. *4,212 occurrences in Grenada.* (Last updated 30 Dec 2025)

NMNH Extant Specimen Records (USNM, US). *4,186 occurrences in Grenada.* (Last updated 2 Jan 2026)

PANGAEA - Data from Leibniz Institute of Marine Sciences. *4,104 occurrences in Grenada.* (Last updated 17 Sep 2025)

iNaturalist Research-grade Observations. *3,932 occurrences in Grenada.* (Last updated 31 Dec 2025)
