

generated January 2026

Honduras

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Honduras. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

► Access and usage

► Data availability in Honduras

► Data mobilization

Number of records published by institutions in Honduras, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in Honduras

Monthly downloads requested by users in Honduras

Recent peer-reviewed articles using GBIF-mediated data by co-authors based in Honduras

The GBIF Secretariat maintains and reports on an ongoing literature tracking programme, giving priority to substantive uses of GBIF-mediated data in peer-reviewed literature while identifying the countries or areas of the authors' institutional affiliations. The citations below represent the five most recent journal articles with at least one co-author from Honduras.

Those interested in assisting the Secretariat in identifying additional peer-reviewed uses of GBIF-mediated data may forward relevant citations to comms@gbif.org.

Milles, Hoffmayer, Arostegui *et al.* (2025) Characterizing seasonal whale shark habitat in the western North Atlantic. *Marine Ecology Progress Series*.
<https://doi.org/10.3354/meps14906>

Csilléry, Yang, Hung *et al.* (2025) GenDivRange: A global dataset of geo-referenced population genetic diversity across species ranges. *Scientific Data*.
<https://doi.org/10.1038/s41597-025-05303-2>

ANTÚNEZ-FONSECA, RAMOS-GALDAMEZ, SOLÍS *et al.* (2024) A new species of the genus *Liotyphlops* Peters, 1881 (Serpentes: Anomalepididae) from the Caribbean coast of Honduras. *Zootaxa*.
<https://doi.org/10.11646/zootaxa.5543.1.5>

López, Turcios-Casco, van den Berghe *et al.* (2024) A Taxonomic Odyssey: An annotated checklist of *Peromyscus* (Cricetidae, Rodentia) in Honduras. *ZooKeys*.
<https://doi.org/10.3897/zookeys.1218.126535>

Brown, Manzanares. (2024) Rare Occurrences of Ocean Sunfish (*Mola mola*) in the Bay Islands of Honduras; Notes on Distribution and Osteology. *Caribbean Journal of Science*.

Data availability

Total data available for selected taxonomic groups in Honduras

Mammals
16,385
occurrences

Birds
3,477,978
occurrences

Bony fish
18,590
occurrences

Amphibians
18,482
occurrences

Insects
167,190
occurrences

Reptiles
30,189
occurrences

Molluscs
9,773
occurrences

Arachnids
9,012
occurrences

Flowering plants
154,324
occurrences

Ferns
15,449
occurrences

Gymnosperms
1,080
occurrences

Mosses
6,420
occurrences

Sac fungi
5,158
occurrences

Basidiomycota
3,915
occurrences

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in Honduras

Occurrence records available about species occurring in Honduras

Species for which at least one occurrence record is available in Honduras

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Most recent datasets from publishers in Honduras

Museo Historia Natural UNAH VS (MUVS) Fish Collection. *Published by Universidad Nacional Autonoma de Honduras en el Valle de Sula*
<https://doi.org/10.15468/fcibsb>

Occurrence records downloaded from GBIF.org, published by institutions in Honduras

Number of occurrence records downloaded via GBIF.org published by institutions in Honduras

Data mobilization

Data sharing with country or area of origin by national institutions in Honduras

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Honduras, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Honduras

Rank	Country or area	No. of occurrences
1	Honduras	3,406,510
2	United States of America	403,142
3	International organization or unknown country	70,044
4	Mexico	21,168
5	United Kingdom	13,607
6	Ecuador	8,359
7	Netherlands	6,097
8	Sweden	5,039
9	Colombia	4,743
10	Germany	3,488

Table 1. Ranking of countries or areas contributing data about Honduras

Top datasets contributing data about Honduras

- EOD – eBird Observation Dataset. 3,406,510 occurrences in Honduras. (Last updated 29 Oct 2025)
- iNaturalist Research-grade Observations. 128,366 occurrences in Honduras. (Last updated 31 Dec 2025)
- International Barcode of Life project (iBOL). 66,477 occurrences in Honduras. (Last updated 28 Nov 2025)
- Tropicos MO Specimen Data. 46,419 occurrences in Honduras. (Last updated 31 Dec 2025)
- NMNH Extant Specimen Records (USNM, US). 41,300 occurrences in Honduras. (Last updated 2 Jan 2026)
