

generated January 2026

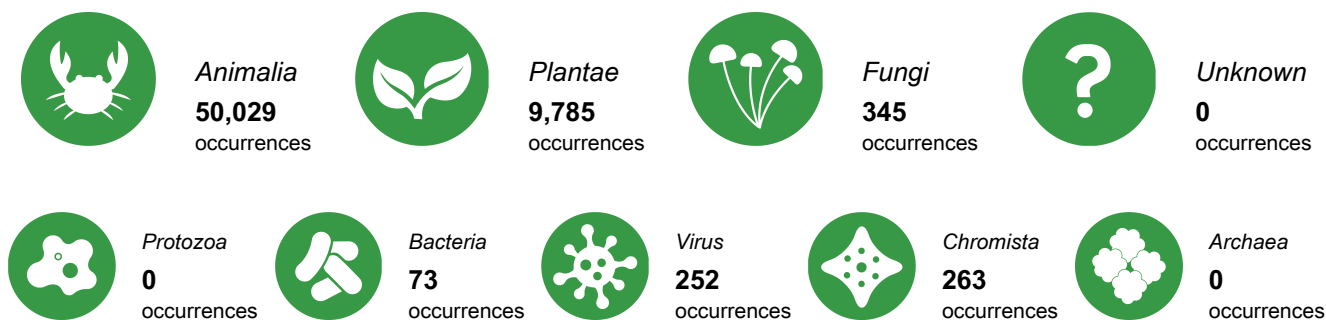

Saint Kitts and Nevis

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Saint Kitts and Nevis. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

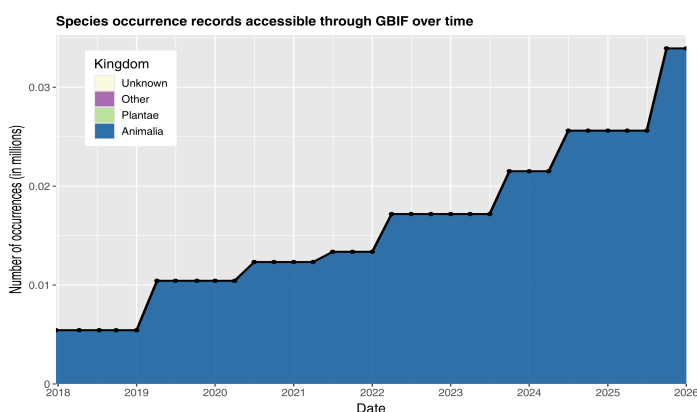

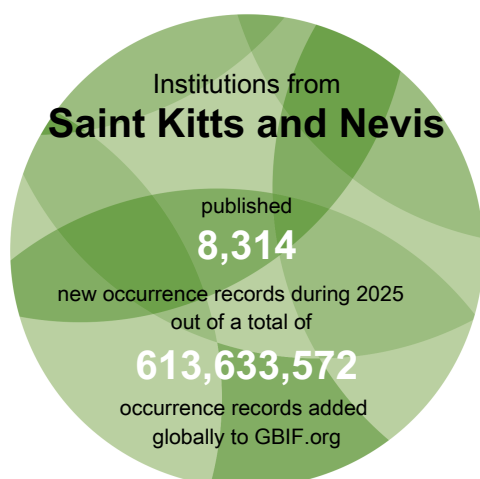

► Access and usage

► Data availability in Saint Kitts and Nevis

► Data mobilization

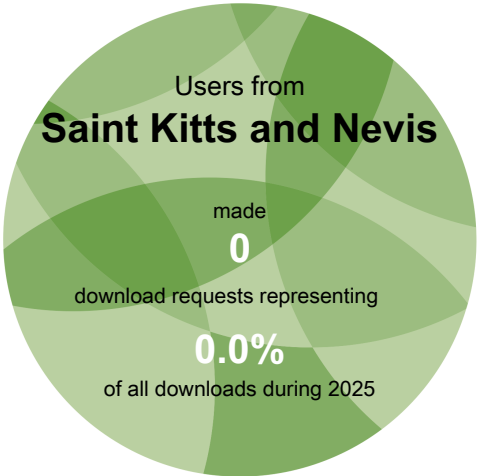

Number of records published by institutions in Saint Kitts and Nevis, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in Saint Kitts and Nevis

Monthly downloads requested by users in Saint Kitts and Nevis

Data availability

Total data available for selected taxonomic groups in Saint Kitts and Nevis

Mammals
654
occurrences

Birds
36,607
occurrences

Bony fish
777
occurrences

Amphibians
515
occurrences

Insects
4,371
occurrences

Reptiles
1,282
occurrences

Molluscs
3,910
occurrences

Arachnids
263
occurrences

Flowering plants
7,446
occurrences

Ferns
867
occurrences

Gymnosperms
16
occurrences

Mosses
478
occurrences

Sac fungi
261
occurrences

Basidiomycota
78
occurrences

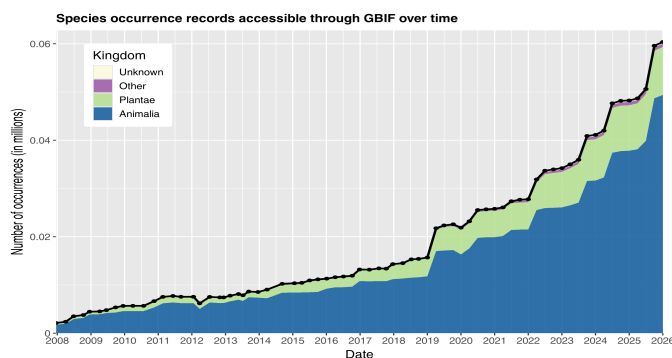

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

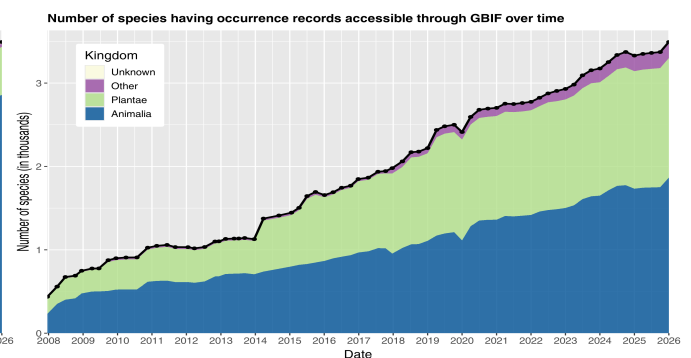

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in Saint Kitts and Nevis

Occurrence records available about species occurring
in Saint Kitts and Nevis

Species for which at least one occurrence record is
available in Saint Kitts and Nevis

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Newest publishers from Saint Kitts and Nevis

No data available

Occurrence records downloaded from GBIF.org, published by institutions in Saint Kitts and Nevis

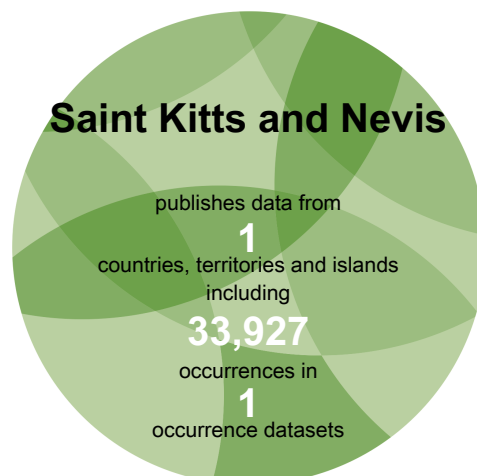

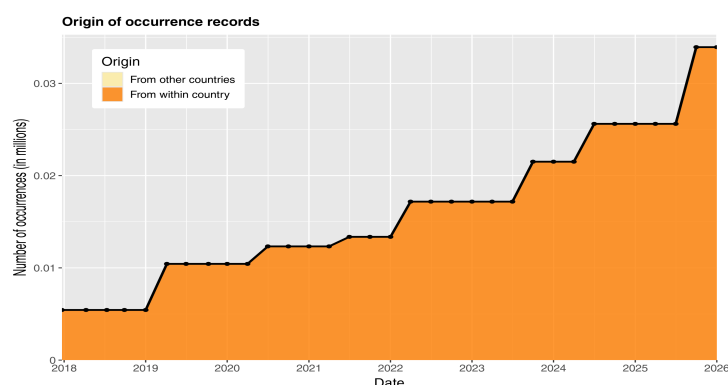

See all publishers from this country or area
gbif.org/publisher/search?country=KN

Number of occurrence records downloaded via GBIF.org published by institutions in Saint Kitts and Nevis

Data mobilization

Data sharing with country or area of origin by national institutions in Saint Kitts and Nevis

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Saint Kitts and Nevis, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Saint Kitts and Nevis

Rank	Country or area	No. of occurrences
1	Saint Kitts and Nevis	33,927
2	United States of America	21,773
3	United Kingdom	1,590
4	Poland	727
5	Canada	593
6	Switzerland	551
7	France	444
8	Netherlands	308
9	International organization or unknown country	191
10	Germany	142

Table 1. Ranking of countries or areas contributing data about Saint Kitts and Nevis

Top datasets contributing data about Saint Kitts and Nevis

EOD – eBird Observation Dataset. 33,927 occurrences in Saint Kitts and Nevis. (Last updated 29 Oct 2025)

iNaturalist Research-grade Observations. 12,270 occurrences in Saint Kitts and Nevis. (Last updated 31 Dec 2025)

NMNH Extant Specimen Records (USNM, US). 2,582 occurrences in Saint Kitts and Nevis. (Last updated 2 Jan 2026)

Museum of Comparative Zoology, Harvard University. 1,933 occurrences in Saint Kitts and Nevis. (Last updated 30 Dec 2025)

The New York Botanical Garden Herbarium (NY). 1,246 occurrences in Saint Kitts and Nevis. (Last updated 25 Dec 2025)
