

generated January 2026

Moldova, Republic of

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Moldova, Republic of. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

► Access and usage

► Data availability in Moldova, Republic of

► Data mobilization

Number of records published by institutions in Moldova, Republic of, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in Moldova, Republic of

Monthly downloads requested by users in Moldova, Republic of

Recent peer-reviewed articles using GBIF-mediated data by co-authors based in Moldova, Republic of

The GBIF Secretariat maintains and reports on an ongoing literature tracking programme, giving priority to substantive uses of GBIF-mediated data in peer-reviewed literature while identifying the countries or areas of the authors' institutional affiliations. The citations below represent the five most recent journal articles with at least one co-author from Moldova, Republic of.

Those interested in assisting the Secretariat in identifying additional peer-reviewed uses of GBIF-mediated data may forward relevant citations to comms@gbif.org.

Ciceu, Bălăcenoiu, de Groot *et al.* (2024) The ongoing range expansion of the invasive oak lace bug across Europe: current occurrence and potential distribution under climate change. *Science of The Total Environment*.

<https://doi.org/10.1016/j.scitotenv.2024.174950>

Niedziałkowska, Doan, Górny *et al.* (2020) Winter temperature and forest cover have shaped red deer distribution in Europe and the Ural Mountains since the Late Pleistocene. *Journal of Biogeography*.

Data availability

Total data available for selected taxonomic groups in Moldova, Republic of

Mammals
1,204
occurrences

Birds
124,266
occurrences

Bony fish
205
occurrences

Amphibians
671
occurrences

Insects
5,642
occurrences

Reptiles
198
occurrences

Molluscs
776
occurrences

Arachnids
313
occurrences

Flowering plants
20,062
occurrences

Ferns
105
occurrences

Gymnosperms
36
occurrences

Mosses
36
occurrences

Sac fungi
290
occurrences

Basidiomycota
575
occurrences

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Change over time in records about biodiversity in Moldova, Republic of

Occurrence records available about species occurring in Moldova, Republic of

Species for which at least one occurrence record is available in Moldova, Republic of

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Data mobilization

Data sharing with country or area of origin by national institutions in Moldova, Republic of

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Moldova, Republic of, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Moldova, Republic of

Rank	Country or area	No. of occurrences
1	Moldova, Republic of	111,410
2	United States of America	8,689
3	Netherlands	7,158
4	Russian Federation	6,394
5	Estonia	4,432
6	Colombia	3,830
7	International organization or unknown country	3,774
8	South Africa	1,988
9	France	1,769
10	Sweden	1,503

Top datasets contributing data about Moldova, Republic of

EOD – eBird Observation Dataset. 111,410 occurrences in Moldova, Republic of. (Last updated 29 Oct 2025)

iNaturalist Research-grade Observations. 7,470 occurrences in Moldova, Republic of. (Last updated 31 Dec 2025)

EBCC Atlas of European Breeding Birds. 6,487 occurrences in Moldova, Republic of. (Last updated 19 Nov 2025)

Moscow University Herbarium (MW). 3,967 occurrences in Moldova, Republic of. (Last updated 1 Jan 2026)

A global database for the distributions of crop wild relatives. 3,830 occurrences in Moldova, Republic of. (Last updated 9 Feb 2024)
