Saint Pierre and Miquelon

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Saint Pierre and Miquelon. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

► Access and usage

► Data availability in Saint Pierre and Miquelon

► Data mobilization

Number of records published by institutions in Saint Pierre and Miquelon, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in Saint Pierre and Miquelon

Monthly downloads requested by users in Saint Pierre and Miquelon

Data availability

Total data available for selected taxonomic groups in Saint Pierre and Miquelon

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in Saint Pierre and Miquelon

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Newest publishers from Saint Pierre and Miquelon

No data available

Occurrence records downloaded from GBIF.org, published by institutions in Saint Pierre and Miquelon

See all publishers from this country or area
gbif.org/publisher/search?country=PM

Number of occurrence records downloaded via GBIF.org published by institutions in Saint Pierre and Miquelon

Data mobilization

Data sharing with country or area of origin by national institutions in Saint Pierre and Miquelon

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Saint Pierre and Miquelon, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Saint Pierre and Miquelon

Rank	Country or area	No. of occurrences
1	Saint Pierre and Miquelon	59,886
2	France	12,646
3	Canada	4,667
4	United Kingdom	3,597
5	United States of America	2,412
6	Switzerland	609
7	Belgium	98
8	Sweden	67
9	International organization or unknown country	52
10	Norway	36

Table 1. Ranking of countries or areas contributing data about Saint Pierre and Miquelon

Top datasets contributing data about Saint Pierre and Miquelon

EOD – eBird Observation Dataset. *59,886 occurrences in Saint Pierre and Miquelon.* (Last updated 29 Oct 2025)

The CPR Survey. *3,541 occurrences in Saint Pierre and Miquelon.* (Last updated 23 Feb 2022)

ECNASAP - East Coast North America Strategic Assessment. *2,981 occurrences in Saint Pierre and Miquelon.* (Last updated 16 Apr 2021)

Référentiel taxonomique national (TAXREF)-Inventaire des Collectivités d'outre-mer et de la métropole issu des données biogéographiques de TAXREF. *2,908 occurrences in Saint Pierre and Miquelon.* (Last updated 20 Mar 2024)

Référentiel taxonomique national (TAXREF) - Inventaire des Collectivités d'outre-mer et de la métropole (ICOM_15) issu des données biogéographiques de TAXREF v15. *2,589 occurrences in Saint Pierre and Miquelon.* (Last updated 17 Dec 2022)
