Solomon Islands

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Solomon Islands. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

► Access and usage

► Data availability in Solomon Islands

► Data mobilization

Number of records published by institutions in Solomon Islands, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in Solomon Islands

Recent peer-reviewed articles using GBIF-mediated data by co-authors based in Solomon Islands

The GBIF Secretariat maintains and reports on an ongoing literature tracking programme, giving priority to substantive uses of GBIF-mediated data in peer-reviewed literature while identifying the countries or areas of the authors' institutional affiliations. The citations below represent the five most recent journal articles with at least one co-author from Solomon Islands.

Those interested in assisting the Secretariat in identifying additional peer-reviewed uses of GBIF-mediated data may forward relevant citations to comms@gbif.org.

McKenzie, Yoshida, Aini *et al.* (2021) Seagrass ecosystems of the Pacific Island Countries and Territories: A global bright spot. *Marine Pollution Bulletin*.

Data availability

Total data available for selected taxonomic groups in Solomon Islands

Mammals
7,192
occurrences

Birds
54,355
occurrences

Bony fish
53,846
occurrences

Amphibians
5,272
occurrences

Insects
24,256
occurrences

Reptiles
16,064
occurrences

Molluscs
43,772
occurrences

Arachnids
1,250
occurrences

Flowering plants
67,214
occurrences

Ferns
12,738
occurrences

Gymnosperms
787
occurrences

Mosses
1,565
occurrences

Sac fungi
3,982
occurrences

Basidiomycota
1,352
occurrences

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in Solomon Islands

Occurrence records available about species occurring in Solomon Islands

Species for which at least one occurrence record is available in Solomon Islands

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Most recent datasets from publishers in Solomon Islands

GBIF.org published by institutions in Solomon Islands

Data mobilization

Data sharing with country or area of origin by national institutions in Solomon Islands

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Solomon Islands, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Solomon Islands

Rank	Country or area	No. of occurrences
1	United States of America	89,605
2	Australia	53,491
3	Solomon Islands	42,762
4	United Kingdom	41,942
5	Netherlands	29,934
6	France	17,753
7	New Caledonia	10,699
8	Taiwan	10,343
9	New Zealand	6,737
10	International organization or unknown country	3,934

Table 1. Ranking of countries or areas contributing data about Solomon Islands

Top datasets contributing data about Solomon Islands

- EOD – eBird Observation Dataset. 39,935 occurrences in Solomon Islands. (Last updated 29 Oct 2025)
- Royal Botanic Gardens, Kew - Herbarium Specimens. 25,840 occurrences in Solomon Islands. (Last updated 2 Jan 2026)
- Naturalis Biodiversity Center (NL) - Botany. 23,596 occurrences in Solomon Islands. (Last updated 23 Oct 2025)
- Reef shark prey abundances from 46 sites in the Solomon Islands (2015). 20,542 occurrences in Solomon Islands. (Last updated 31 Oct 2023)
- Australian Museum provider for OZCAM. 14,247 occurrences in Solomon Islands. (Last updated 23 Dec 2025)
