

generated January 2026

San Marino

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in San Marino. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

► Access and usage

► Data availability in San Marino

► Data mobilization

Number of records published by institutions in San Marino, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in San Marino

Monthly downloads requested by users in San Marino

Data availability

Total data available for selected taxonomic groups in San Marino

Mammals
4
occurrences

Birds
1,753
occurrences

Bony fish
0
occurrences

Amphibians
0
occurrences

Insects
977
occurrences

Reptiles
14
occurrences

Molluscs
26
occurrences

Arachnids
10
occurrences

Flowering plants
1,002
occurrences

Ferns
34
occurrences

Gymnosperms
21
occurrences

Mosses
3
occurrences

Sac fungi
36
occurrences

Basidiomycota
9
occurrences

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in San Marino

Occurrence records available about species occurring in San Marino

Species for which at least one occurrence record is available in San Marino

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Newest publishers from San Marino

No data available

Occurrence records downloaded from GBIF.org, published by institutions in San Marino

See all publishers from this country or area
gbif.org/publisher/search?country=SM

Number of occurrence records downloaded via GBIF.org published by institutions in San Marino

Data mobilization

Data sharing with country or area of origin by national institutions in San Marino

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within San Marino, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in San Marino

Rank	Country or area	No. of occurrences
1	San Marino	1,654
2	France	708
3	Finland	566
4	Netherlands	315
5	Germany	296
6	Sweden	100
7	United Kingdom	78
8	International organization or unknown country	66
9	United States of America	47
10	Colombia	32

Table 1. Ranking of countries or areas contributing data about San Marino

Top datasets contributing data about San Marino

EOD – eBird Observation Dataset. *1,654 occurrences in San Marino.* (Last updated 29 Oct 2025)

PI@ntNet automatically identified occurrences. *626 occurrences in San Marino.* (Last updated 20 Oct 2025)

European Moth Nights. *407 occurrences in San Marino.* (Last updated 19 Mar 2024)

Observation.org, Nature data from around the World. *291 occurrences in San Marino.* (Last updated 16 Dec 2025)

NABU|naturgucker. *197 occurrences in San Marino.* (Last updated 29 Oct 2025)
