

generated January 2026

Syrian Arab Republic

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Syrian Arab Republic. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

► Access and usage

► Data availability in Syrian Arab Republic

► Data mobilization

Number of records published by institutions in Syrian Arab Republic, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in Syrian Arab Republic

Recent peer-reviewed articles using GBIF-mediated data by co-authors based in Syrian Arab Republic

The GBIF Secretariat maintains and reports on an ongoing literature tracking programme, giving priority to substantive uses of GBIF-mediated data in peer-reviewed literature while identifying the countries or areas of the authors' institutional affiliations. The citations below represent the five most recent journal articles with at least one co-author from Syrian Arab Republic.

Those interested in assisting the Secretariat in identifying additional peer-reviewed uses of GBIF-mediated data may forward relevant citations to comms@gbif.org.

AIDEK, SAAD, JABLONSKI *et al.* (2024) Turtles and tortoises of Syria: Diversity, distribution, and conservation. *Zootaxa*.

<https://doi.org/10.11646/zootaxa.5506.2.1>

Shehadeh, Amri, Maxted. (2013) Ecogeographic survey and gap analysis of *Lathyrus* L. species. *Genetic Resources and Crop Evolution*.

<https://doi.org/10.1007/s10722-013-9977-0>

Maxted, Hargreaves, Kell *et al.* (2012) Temperate forage and pulse legume genetic gap analysis. *Bocconea*.

Data availability

Total data available for selected taxonomic groups in Syrian Arab Republic

Mammals = Class *Mammalia*
Birds = Class *Aves*
Bony fish = Superclass
Osteichthyes p.p.
Amphibians = Class *Amphibia*

Insects = Class *Insecta*
Reptiles = Class *Testudines*,
Sphenodontia, *Squamata* &
Crocodylia
Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*
Flowering plants = Phylum
Magnoliophyta
Gymnosperms = Superclass
Gymnospermae

Ferns = Phylum *Pteridophyta*
Mosses = Phylum *Bryophyta*
Sac fungi = Phylum *Ascomycota*
Basidiomycota = Phylum
Basidiomycota

Change over time in records about biodiversity in Syrian Arab Republic

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Newest publishers from Syrian Arab Republic

No data available

Occurrence records downloaded from GBIF.org, published by institutions in Syrian Arab Republic

See all publishers from this country or area
gbif.org/publisher/search?country=SY

Number of occurrence records downloaded via GBIF.org published by institutions in Syrian Arab Republic

Data mobilization

Data sharing with country or area of origin by national institutions in Syrian Arab Republic

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Syrian Arab Republic, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Syrian Arab Republic

Rank	Country or area	No. of occurrences
1	Israel	257,538
2	International organization or unknown country	26,937
3	Colombia	21,113
4	United Kingdom	17,780
5	United States of America	16,816
6	Sweden	14,879
7	France	9,282
8	Germany	8,286
9	Estonia	8,274
10	Syrian Arab Republic	5,943

Top datasets contributing data about Syrian Arab Republic

INPA - Observations. 246,963 occurrences in Syrian Arab Republic. (Last updated 4 Jan 2026)

A global database for the distributions of crop wild relatives. 21,109 occurrences in Syrian Arab Republic. (Last updated 9 Feb 2024)

The System-wide Information Network for Genetic Resources (SINGER). 13,528 occurrences in Syrian Arab Republic. (Last updated 9 Mar 2018)

Royal Botanic Gardens, Kew - Herbarium Specimens. 11,977 occurrences in Syrian Arab Republic. (Last updated 2 Jan 2026)

Svalbard Global Seed Vault Collection. 11,597 occurrences in Syrian Arab Republic. (Last updated 14 Feb 2025)
